ASYA IS BROUGHT TO LIFE BY THE
IMPECCABLE WORK OF THE EXPERTS

- ARCHITECT -

Tom Elliot

"Asya Sentarum's house units were designed with elegance, exclusiveness, and modernity in mind. These are reflected on the facades which are derived from classical style, but with a touch of strong simple and fresh modern character.

The houses' layout arrangement centres around creating spaciousness and vastness within the houses. This is what the residents will experience when living therein. At the same time, attention is also paid to creating a sense of intimacy. Family members will feel they are never too distant from each other. These are houses that will fit modern, vibrant people."
